Course : PCB

USN : 4AL18EC050

Topic : A hands on tour of Kicad with
a simple project

Report :

- E eschema consist of the sheet area in which you compose your schematic (1), multiple menu bars
- We create schematics Inside the sheet area.
- To edit the contents of the title block
- The Page settings dialog box contains two parts On left you can control size & on right you can edit the information
- Go ahead & bring up the Page setting dialog box
- The right side is more interesting. At the very top is the issue date field
- Continue with the rest of the fields. They are all self - explanatory
- Comments 2, 3 & 4 are additional lines that you can use to provide more information
- At the bottom of the window is a field titled 'Page layout description file'.
- Go ahead & fill in your own information to populate the title block
- We can zoom in & out, & pan using the controls
- Let's return to the 'Page layout description file'
